Surface finishing both sides grit 80

3-layer hardwood panels are the best solution in terms of their structure and appearance when it comes to the natural, harmonious design of interiors. The 3-layer panel ALFA.G3 has a top layer thickness of 5 mm. In combination with the special lightweight middle layer, this results in the possible total thicknesses of 40, 50, 60, 70 and 80 mm. All panels are glued with formaldehyde-free D3 glue. The edges are sawn, although further refinements are possible here.
