

Mosa. Tiles. Mosa Murals®

Mosa Murals®

Keramische wanden

Mosa Murals® is een uniek en vernieuwend concept voor keramische wanden. De essentie is niet enkel de toepassing van tegels in een wand, maar het creëren van een keramische wand met authenticiteit: een mural. Elke mural heeft een individueel karakter en signatuur en wordt gevormd door een afgewogen combinatie van formaten, kleurtonen, kleuren en oppervlakken in een gekozen of zelf ontworpen grid. Het patroon resulteert in een keramische wand met gelaagdheid in meervoudige dimensies. Ontdek zelf de eindeloze ontwerpmogelijkheden en raak geïnspireerd.

De Mosa Murals collectie is opgebouwd uit drie series: Blend, Lines en Change. Elk met een eigen karakter op basis van hetzelfde kleurenpalet.

Murs en carreaux de céramique

Mosa Murals® est un concept innovant unique pour les murs en carreaux de céramique. L'important n'est pas seulement de poser des carreaux sur un mur, mais également de créer un mur en céramique doté d'authenticité. Chaque mural se reconnaît à son caractère et son originalité, il résulte d'une combinaison harmonieuse entre les différentes dimensions, couleurs, nuances et surfaces, le tout disposé dans une trame choisie, voire conçue spécialement. A partir du gabarit sera réalisé un mur en céramique caractérisé par sa stratification en multiples dimensions. Découvrez les infinies possibilités de création que ces murals inspirent. La collection Mosa Murals comprend trois séries : Blend, Lines et Change. Chacune avec ses caractéristiques propres, basées sur la même palette de couleurs.

Keramische Flächen

Mosa Murals® ist ein einzigartiges und erfrischendes Konzept für keramische Flächen. Entscheidend ist, nicht nur Fliesen an einer Wand anzubringen, sondern eine keramische Fläche mit einem authentischen Charakter zu schaffen: ein Mural. Jedes Mural hat einen eigenen Charakter und eine eigene Note und besteht aus einer ausgewogenen Kombination verschiedener Formate, Farbtöne, Farben und Oberflächen, in einem ausgewählten oder selbst entworfenen Raster. Durch dieses Muster entsteht eine keramische Fläche, deren Vielschichtigkeit sich über mehrere Dimensionen erstreckt. Zahllose Designmöglichkeiten und Inspirationen stehen zur Verfügung.

Die Kollektion Mosa Murals besteht aus den drei Reihen Blend, Lines und Change. Jede Reihe verfügt über einen eigenen Charakter auf der Grundlage derselben Farbpalette.

Ceramic walls

Mosa Murals® is a unique and innovative concept for ceramic walls. The essence is not only found in applying tiles to a wall, but also in creating an authentic ceramic wall: a mural. Each mural has an individual character and signature, and is designed by balancing size, tone, colour and surfaces in a preselected or custom-designed grid. The resulting pattern is a ceramic wall, layered across multiple dimensions. Discover the endless design possibilities and be inspired. The Mosa Murals collection consists of three series: Blend, Lines and Change. Each series has its own character taken from the same colour palette.

Blend

Harmonieus en levendig

Een ontmoeting van kleurtonen, glansgradaties en formaten in een keramische wand. De tegels van Blend zijn ontworpen en ontwikkeld om onderling te worden gemengd tot een harmonieus en levendig vlak. Dit kan ingetogen zijn of meer expressief al naar gelang keuze van grid en kleurcombinaties. Het palet subtiele kleurtonen, formaten en glansgradaties is samengebracht in kleurfamilies die onderling verbonden zijn. Als elementen die de ontwerper uitnodigen en uitdagen. Met oneindige designmogelijkheden en individuele signatuur.

Mouvement harmonieux

La rencontre de nuances, de dégradés de brillant et de formats différents dans un mur de céramique. Les carreaux Blend sont créés et produits pour être associés entre eux et donner une impression de mouvement harmonieux. De manière discrète ou plus expressive selon le choix de trame et de mélanges de couleurs. La palette de nuances subtiles, de formats et de dégradés de brillant regroupée selon les familles de couleurs associées entre elles invite les créateurs à exceller dans leurs projets. Les possibilités de création tout à fait personnelles sont infinies.

Harmonisch und lebendig

Farbtöne, Glanzstufen und Formate treffen in einer Wand aufeinander. Die Blend-Fliesen wurden entworfen und entwickelt, um miteinander zu einer harmonischen und lebendigen Oberfläche kombiniert zu werden. Diese Oberfläche kann je nach Raster und Farbkombinationen dezent oder expressiv gestaltet werden. Die Palette der subtilen Farbtöne, Formate und Glanzstufen wird zu Farbfamilien kombiniert, die miteinander in Verbindung stehen. Und zwar in Form von Elementen, die den Designer mit zahllosen Designoptionen und einer individuellen Signatur einladen und herausfordern.

Harmonious and vivid

A meeting of colour tones, gradations of gloss and sizes in one ceramic wall. Blend tiles are developed and designed to be mutually combined to create a harmonious and vivid surface. This surface might be subdued or expressive, depending on the choice of grids and colour combinations. The palette of subtle colour tones, sizes and gloss gradations are brought together as mutually linked colour families. The large selection of elements invites and challenges the designer with a limitless range of design options and individual signatures.

Lines

Verdieping en verfijning

Elegantie en subtiele variatie in scherpomlijnde vlakken met verdieping en verfijning. Lines tegels verleiden door een spel van licht, schaduw en beweging. Met reliëfstructuren die zorgen voor een verdieping van de asymmetrische vlakken. De tegels intrigeren door strak hellende lijnen. Bijzondere geometrische structuren harmoniëren met het grid tot een monochroom maar levendig keramisch oppervlak.

Profondeur et finesse

Élégance et variations subtiles de surfaces aux contours parfaits, marquées par leur profondeur et finesse. Les carreaux Lines séduisent par le jeu de lumière, d'ombre et de mouvement. Les structures en relief donnent de la profondeur aux surfaces asymétriques. Ces carreaux intriguent de par leurs lignes à forte déclivité. Les structures géométriques originales s'associent harmonieusement à la trame pour former une surface en céramique monochrome dynamique.

Raffiniert und abgestuft

Eine elegante und subtile Variation mit genau abgegrenzten, raffiniert abgestuften Flächen. Lines-Fliesen verführen durch ihr Spiel von Licht, Schatten und Bewegung. Mit Reliefstrukturen, die für Abstufungen in den asymmetrischen Flächen sorgen. Die Fliesen bestehen durch glatt abfallende Flächen. Auffällige geometrische Strukturen harmonisieren mit dem Raster und bilden eine monochrome, aber lebendige keramische Oberfläche.

Profundity and refinement

Lines tiles embody elegance and subtle variation in clearly defined surfaces with profundity and refinement. Lines tiles use a play of light, shadow and movement to seduce. Create reliefs that create depth through asymmetric surfaces. The tiles cast intrigue using their clean, slanting lines. Interesting geometric structures harmonise with the grid to create a monochrome, yet vivid, ceramic surface.

Bijzondere mat-glans effecten

Change* staat voor keramische expressie in een pure vorm. Een dikke glazuurveeg druipt als het ware van de tegel af. Deze benadrukt het keramisch karakter van de tegelwand en creëert een bijzonder verschijningsbeeld. Door subtiele belijning samen met een willekeurig aangebrachte glazuurveeg ontstaat een bijzonder wandoppervlak met individualiteit. Dit wordt al bereikt met eenvoudige patronen in één formaat. Change in steenmat-glans maakt de wand sprekender, Change in steenmat-steenmat versterkt het kleureffect.

Effets mat-brillant spécial

Change*, c'est la céramique dans son expression la plus pure. Un épais balayage de l'émail semble s'écouler du carreau, accentuant l'aspect céramique de l'image reflétée par le mur carrelé. Des contours subtils et un balayage aléatoire de l'émail créent une surface originale marquée d'individualité. Cet effet s'obtient déjà avec des modèles simples dans un seul format. Change en mat pierre-brillant accentue le côté expressif du mur, Change en mat pierre-mat pierre renforce l'effet couleur.

Besondere matt-glanz Effekte

Change* steht für keramische Ausdrucksfähigkeit in reinster Form. Eine breite Glasurfuge tropft quasi von der Fliese nach unten, hebt den keramischen Charakter der Fliesenwand hervor und erschafft ein besonderes Erscheinungsbild. Durch subtile Linienführung und die willkürlich angebrachte Glasurfuge entsteht eine besondere Wandoberfläche mit individuellem Charakter. Dazu tragen auch die einfachen Muster mit einem einzigen Format bei. Steinmatt-glänzende Change-Fliesen lassen eine Wand prononcierter erscheinen, steinmatt-steinmatt verstärkt den Farbeffekt.

Extraordinary matt-gloss effects

Change* tiles represent ceramic expression in its purest form. A thick layer of glaze virtually drips from each tile. This emphasises the tile wall's ceramic nature and creates a special appearance. Subtle lines and a randomly applied layer of glaze creates an extraordinary wall surface. By taking a simple uniformly sized pattern, and utilising the subtle lines and a randomly applied layer of glaze, you will be able to create an extraordinary wall surface. Change tiles in stonematt-gloss make a wall more striking, Change tiles in a stonematt-stonematt effect strengthens the colour effect.

Mosa Pattern Generator

Als ondersteuning bij het ontwerp is de Mosa Pattern Generator ontwikkeld, een handige online tool. De architect of ontwerper kan hiermee zelf een patroon ontwerpen, opties vergelijken en de selectie bewaren.

Mosa Pattern Generator

Pour aider dans la phase de conception, le Mosa Pattern Generator a été développé, un outil en ligne très pratique. Il permet à l'architecte ou au dessinateur de créer ses propres modèles, de comparer différentes options et de conserver la sélection.

Mosa Pattern Generator

Unterstützung beim Design bietet der Mosa Pattern Generator, ein praktisches Online-Tool, mit dem Architekten und Designer selbst Muster entwerfen, Optionen vergleichen und Ergebnisse speichern können.

Mosa Pattern Generator

The Mosa Pattern Generator has been developed as a simple and effective online tool to assist architects and designers in creating a pattern, comparing options and saving the results.

Example patterns

Tile colour approaches, but is not equal to NCS code.
Mosa does not recommend combining the Blend, Lines and Change series in one wall.
Shade variations are inherent to ceramic tile manufacturing.
For more information visit www.mosa.com.

Mosa Murals

Over Mosa

Mosa Murals is een vernieuwend concept voor keramische wanden van Mosa. Mosa staat bekend als toonaangevende tegelproducent die zich primair richt op de internationale architectenmarkt. Design, functionaliteit en duurzaamheid zijn Mosa's kernwaarden. Mosa heeft jarenlange internationale expertise in keramiek en beschikt over eigen fabrieken voor wand- en vloertegels met unieke technologieën.

Duurzaamheid is één van de kernwaarden van Mosa en staat centraal bij de ontwikkeling van nieuwe producten. Mosa collecties, inclusief Mosa Murals, zijn Cradle to Cradle® Silver gecertificeerd en voldoen aan de hedendaagse en toekomstige standaard voor duurzaam bouwen.

À propos de Mosa

Mosa Murals est un concept innovant de murs en carreaux de céramique de la société Mosa, reconnue en tant que leader dans la production de carrelages destinés principalement aux architectes à un niveau international. Design, fonctionnalité et développement durable sont les valeurs clés de Mosa, qui fait preuve d'une expertise internationale en céramique depuis de nombreuses années et fabrique les carreaux muraux et de sol dans ses usines selon des technologies originales.

Le développement durable, une des valeurs clés de Mosa, occupe une place primordiale dans l'élaboration de nouveaux produits. Les collections de Mosa, y compris Mosa Murals, sont certifiées Cradle to Cradle® Silver et elles répondent aux normes actuelles et futures de la construction durable.

Über Mosa

Mosa Murals ist ein neues Konzept für Keramikwände von Mosa. Mosa ist als führender Fliesenhersteller bekannt, der sich in erster Linie auf den internationalen Architektenmarkt konzentriert. Die Kernwerte von Mosa lauten Design, Funktionalität und Nachhaltigkeit. Mosa verfügt über jahrelange internationale Erfahrung im Bereich Keramik und besitzt eigene Produktionsstätten für Wand- und Bodenfliesen, in denen besondere Technologien eingesetzt werden.

Einer der Kernwerte der Firma Mosa ist die Nachhaltigkeit, die bei der Entwicklung neuer Produkte im Vordergrund steht. Die Kollektionen, auch Mosa Murals, sind gemäß Cradle to Cradle® Silver zertifiziert und entsprechen den derzeitigen Normen für nachhaltiges Bauen.

About Mosa

Mosa Murals is an innovative concept for ceramic walls by Mosa. Mosa is a leading tile manufacturer that primarily focuses on the international architectural market. Mosa's core values are design, functionality and sustainability. Mosa has acquired vast expertise in the ceramics field over the course of many years and has its own factories equipped with unique technology to produce wall and floor tiles.

Sustainability is one of Mosa's core values and is at the very centre of new product development. Mosa's collections, including Mosa Murals, are Cradle to Cradle® Silver certified and meet current and future sustainable construction standards.

Cradle to Cradle Certified™ is a multi-attribute certification program that assesses products and materials for safety to human & environmental health, design for future use cycles, and sustainable manufacturing.
