### Lehmann structured wood

### Blumer Lehmann

<https://www.blumer-lehmann.com/> | [info@blumer-lehmann.com](mailto:info@blumer-lehmann.com)

#### Type: Wood | Panelling

Discover the interior and exterior design options with the new structured wood surfaces. The design options offered by the new structured wood surfaces for indoor and outdoor applications are diverse. Choose the wood type and structure that fits with your later application, whether it's a wall or facade cladding, decking or concrete cladding. With four standard structures and the option of designing custom surfaces according to your wishes, a whole new dimension of possibilities opens up for applications in architecture, art and design.

| Delivery zones                        | CH   |
| Size of the CAD & BIM texture         | Height: 2000.0 mm / Width: 2000.0 mm   |

#### IMPORTANT LEGAL INFORMATION FOR USAGE OF THE MTEXTUR-DATABASE AND MTEXTUR DATASHEET:

In the mtextur-database and the mtextur-datasheet you can find a variety of high-quality digitalized materials, classified according material-type and subtype, color scope, field of application, manufacturer and product-line. The liability of the colors and the pattern of a CAD-texture can not always be guaranteed. For binding samples and additional questions please get in contact with the manufacturer or reseller directly (request link on material page). The information found on the mtextur-database is carefully collected and tested. Nevertheless are there possibilities for mistakes or wrong information. The publisher, h2c GmbH, the according manufacturers and resellers are not liable for any missing or incorrect information and its outcome, except h2c GmbH acts insofar willful.
